

AIRLIFE® NONINVASIVE VENTILATION MASKS

LATEX FREE | DEHP FREE

The AirLife® Noninvasive Ventilation (NIV) full face and nasal masks offer clinicians a reliable option while providing patients comfort and security. The adjustable four-point headgear enables ease in fit and adjustment while the flexible swivel elbow reduces torque applied to the seal between the mask and patient, helping to minimize pressure points.

Adjustable forehead rest for comfort and stability

Flexible swivel connector enables ease in positioning of the circuit

Quick-release clip eliminates the need to refit after removal

Nasal Mask

MASK FLEXES WHEN THE CIRCUIT IS PULLED

Mask when flexed

Mask not flexed

FEATURES

- Comfortable four-point headgear with crown strap for better stability and sealing
- Soft seal that conforms to the face, reducing need to overtighten
- Lightweight, silicone design that contours to the patient's face for a comfortable fit
- Include both vented and non-vented options and are available in three sizes to fit a wide range of patients.
